AnatoMark - Hiro marker

Print at 100% / Actual size (do not choose "Fit to page"). Use matte paper if you can.

This line should measure exactly 5 cm. If not, re-print at 100%.

The black square is 12 cm. Keep the marker flat, fully in view and well lit; do not crop the border or margin.

Hiro pattern from AR.js / ARToolKit (MIT / LGPL).
